International Symposium on Bilingualism

The conference theme of ISB14 is Diversity Now

International Symposium on Bilingualism (ISB) is a biennial conference on a wide range of issues concerning bi/multilingualism.

The United Nations General Assembly has declared the period between 2022 and 2032 as the International Decade of Indigenous Languages to draw attention to the critical status of many
Indigenous languages across the world and encourage action for their preservation, revitalisation, and promotion. As we move into this decade, ISB14 encourages work especially involving lesser studied bilingual communities and interdisciplinary work to tackle bilingualism across the life-span, cultures and societies.
